Subject: Microsoft Settlement

I would like to take a moment to comment on the proposed settlement that the USDOJ has accepted from Microsoft Corporation. I feel that the proposed settlement is unjust due to the fact that it imposes no further remediation than that which was already put forth in the initial judgement against Microsoft.

To accept the proposed settlement would not only undermine consumer confidence, but would show large corporations that anti-trust behaviors will be tolerated and accepted. This is not the attitude that I wish for the world to see displayed within my country.

Thank you.
